

invites you to hear

Jeff Weir

Executive Director

Dolphin Research Institute

Dolphins & Whales in our Region

- Learn about our remarkable bays and the dolphins and whales in our region.
- Hear stories about people and whales in our region to demonstrate the impact that passionate citizen scientists can deliver.
- Discuss the work of the Dolphin Research Institute work especially the new '*i sea, i care*' **COMMUNITIES Program** and how the community can assist.
- Understand the value of citizen science to the conservation of marine mammals and how you can help.

Jeff is the founding Director of the Dolphin Research Institute and has a diverse background in Marine Biology, Education and Business.

He is an award-winning underwater photographer and has presented papers at scientific and education conferences and is regularly seen in the media. His book *The dolphin book*, was published in 2009.

Jeff was awarded an Order of Australia Medal (OAM) for his contributions to marine conservation.

He lives in Frankston with his wife Liz and grand-dog. He has twin sons, who also live on the Peninsula, and 6 grandchildren.
